

Hostel Management Information System

State Scholarship Portal (SSP) is an application for providing Scholarships, an initiative by the Government of Karnataka to provide financial assistance to Post-matric students. Every year Department of Social Welfare, Department of Backward Classes, Department of Minorities Department and Department of Scheduled Tribes Welfare disburses Post-matric Scholarships. It is a welcome initiative from the government for the students from economically weaker sections to pursue their education.

Through SSP portal, a special scholarship scheme called Hostel Management Information System (HMIS) has been introduced from 2021 and is available for students staying in college hostels. Some of the important features of this scheme are:

- This facility is available for SC, ST and OBC students.
- Each student is eligible to claim a maximum of Rs.20,000/- per year.
- Both boys and girl students are eligible for this scholarship.
- The scholarship amount is being distributed by Central government to state government, which in turn distributed to the eligible students.

In JSSATE, Bengaluru, around 150 students (80 boys and 70 girls) are getting benefits from this scheme during the academic year 2020-21.
